## What is Premium Funding?

Premium funding is a cash flow solution that gives businesses the ability to spread the payment of their insurance premiums over regular monthly instalments, instead of shouldering the whole cost upfront.

Our premium funding products can be structured flexibly to meet the unique financial needs of any business.

## Benefits of our premium funding:

-  **Frees up working capital**  
For other income generating opportunities.
-  **Won't interfere with existing finance facilities**  
Premium funding won't interfere with existing finance facilities, such as bank overdrafts.
-  **Flexible payment methods**  
Including direct debit and credit card.
-  **Tax deductible**  
Interest repayments may be tax deductible.
-  **Flexible repayment options**  
Up to 12 monthly instalments.
-  **Easy application process**  
One page premium funding application.
